

Check Writing Module

Automate Check Runs and Print
Directly to Blank Check Stock

Easy, Efficient Check Printing From Multiple Accounts and Entities.

CheckForm™ is a Navigator module that allows you to print MICR-encoded checks directly onto blank check stock. Print checks from multiple accounts and entities with ease, saving time and money.

With CheckForm You Can:

- Print complete checks, including MICR-encoded account and bank routing numbers directly onto blank check stock from your office printer.
- Save time by printing checks for multiple bank or investment accounts without changing cartridges or printers.
- Print fully customized, professionally formatted checks with your logo and digital signature.

CheckForm Features:

- MICR Encoded Font
- Two Signature Lines
- Two Checks per Page
- Checks and Stubs
- Duplicate Checks
- Optional Postal Bar Codes
